

SEPTEMBER 4TH 2023

# ST MARY'S NEWS

Dear Parent,

I hope you have all had a restful and enjoyable summer holiday!

The builders have been working right up to the end of today to finish the works in school. The new areas look lovely and we are sure the children will enjoy using them. Photos will follow in my next newsletter.

Key Stage 2 can return to their normal gate tomorrow. They come through the outer gate and any bikes and scooters can be placed on in the new racks on the wall just inside the gates.

Key Stage 1 and our new Reception class will come through the Key Stage 1 gates and the gate to Reception playground will be open for you to come in. The gate we used to use for entry will now be the exit gate for Reception parents.

***Just a reminder to all parents that gates will shut promptly at 8:50 each day. A bell will signal this each morning. There will be staff on both gates to take messages and teachers are happy to follow up with longer conversations after school where needed.***

**The weather has been very hot today - please do send the children in summer clothing with hats and sun cream as it looks likely that it will be hot all week.**

We look forward to welcoming everyone back in the morning!

*Kate Batorska*
